EDUCATION

Chandigarh University
Bachelors Of Computer Applications (BCA) (CGPA:8.4)   *Graduation Date: July 2025*

WORK EXPERIENCE

DIFM.tech   **Online**
Front-End Developer (Intern)   *June 2023-August*

- Conducted a comprehensive review and analysis of the existing site, identifying key areas for improvement and innovation in wireframing and redesigning processes.
- Implemented redesign strategies by contributing to a 30% overhaul of the site, focusing on enhancing user experience and incorporating modern design principles.
- Demonstrated proficiency in utilizing Bootstrap classes, minimizing reliance on raw CSS, leading to more efficient and streamlined web development practices.
- Acquired advanced skills in jQuery within JavaScript, significantly improving the functionality and interactivity of the redesigned site.
- Applied critical thinking and problem-solving skills to create detailed reports, outlining essential considerations for wireframing and redesigning, resulting in a more strategic and targeted approach.
- Successfully learned and applied WordPress during the internship, completing a task to create a new page in the company's open-source WordPress project.
- Contributed to the growth of technical skills, specifically in WordPress development, while actively participating in a hands-on project within a real-world environment.
- Demonstrated a commitment to continuous learning by adapting to new technologies and methodologies, showcasing adaptability and a proactive approach to professional development.

DIFM.tech   **Online**
Technical Article Writer (Intern)   *Feb 2023- June*

- Crafted engaging articles focused on space and environmental topics, demonstrating a strong command of language and subject matter expertise.
- Collaborated effectively as a member of the article writing group, providing assistance to colleagues in refining their writing styles and enhancing the overall quality of the articles.
- Showcased a commitment to continuous improvement by actively participating in group discussions, exchanging ideas, and staying updated on the latest developments in space and environmental sciences.
